(Custom Domain \$1.75/mo. one time setup fee \$25.99)

Custom Domain

_____ @ _____
 _____ @ _____

TIPS:

Step #1 - Fill out current address and billing info

Step #2 - You can choose to Download the software from a Link that we will email you. The difference between the GZ Complete Kit and just the GZ Drive is a Dialup modem. If you are not sure if you have a modem or not we encourage you to order the Complete Kit.

Step #3 - This password will be saved in your computer after setup is complete, if you wish to access your account from another computer then you will need this Password along with your email address

Step#4 - Info about Options:

- OpenDNS Family Shield** - A good basic web filter, non-configurable
SafeGuardPlus - Agape administers your account creating a tamper free solution
SafeGuard Email-Only block - Lock your computer down to Email-Only for any connection
Toll Free Service - Provides toll-free access in USA and Canada at \$2.00/hr (\$.033/min)
Web Accelerator - Uses compression to download web pages quicker

Step #5 - Specify what you want your email address to be (e.g. bradh@aimail.us) The custom domain option allows you to have a unique email address (e.g. bradh@myownlittlebusiness.com) Having a custom domain also allows you to optionally host a website (e.g. www.myownlittlebusiness.com)

Step 2 - Choose Setup Option:

Download Software:

\$10.00 - Email Address _____

Mail Software:

- \$25.00 GZ Drive Only (\$30.00 Canada)
 \$55.00 GZ Complete Kit (\$60.00 Canada)

 \$9.99 - Rush Same Day Activation
